EDUCATION

University of Maryland Baltimore County

Bachelor of Science in Computer Science

GPA: 3.54

Expected May 2024

Relevant Coursework: Computer Science 1, Computer Science 2, Discrete Structures, Advanced Programming, Introduction to Computer Programming

SKILLS

Languages: Python (Proficient) C++ (Prior experience) Java (Prior experience) HTML CSS

Technologies: UNIX MySQL JSON

PROJECTS

Portfolio Website

July - August 2021

Email Management System

July 2021

Using Python developed a script that allows users to access their email in order to delete emails by date or subject.

This program automates the deletion and clean up of various inboxes.

Crafting Simulator

May 2021

Created a game that incorporates a crafting simulator using Python that allows for users to create items based on their inventory. Additionally, recipes and ingredients can be made by the user and are imported into the program as a JSON file.

Battleship

April 2021

Simulated the game Battleship in order to gain more familiarity with fundamental programming techniques. The program incorporated object oriented design, created the board, registered hits between each player, and updated the board based upon the moves made.
